Straw

Latte

Iguana

Orange Cream

Hazelnut

Tuscan Clay

Stone

Pistachio

Burnt Orange

Blue Steel

Mushroom

COLOURED CONCRETE

Salt Dune

Grey Mist

Graphite

Indian Ink

Silver

Colori coloured concrete can be finished using a variety of conventional methods:

- Expose™ exposed aggregate;
- Boralstone™ polished and honed concrete;
- Broom finish;
- Machine trowel finish;
- Off form or precast concrete;
- Sand blast finishes and;
- Textured imprint mats & artistic creations.

The final colour and finish of your concrete is subject to variation due to environmental, placement techniques and raw material changes. The Colours featured in the Colori range are to be used as a guide only and not an exact representation.

Natural products can vary

Colori contains aggregates and other materials that originate from natural quarry products therefore some variation in appearance and consistency may occur.

Ordering

We recommend making final colour selection from actual concrete samples that are current at time of order. Particular projects may require the use of specific construction and placement techniques that may effect the final appearance of the product.

Desert Red

Canvas

Pearl Haze
